BEAT FEST

Saturday 17 June

9.30am-5pm

at Liverpool Central Library

BEATFEST 1963-2023

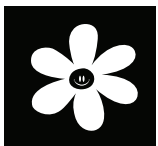

Celebrating both the full return this year of our 'White Heat of Technology' event LiverpoolMakefest, and the Liverpool 1963 How did we do it? Merseybeat exhibition, we've created a special family friendly day packed with activities, talks, live music, choirs and much more including;

- Performances in the afternoon by Cavern headliners 'The Shakers' in the family friendly Discover Library.
- A talk by artist and children's book author Tina Freeman, who'll be reading from some of her brilliant Beatle and Mod themed children's books.
- Attend a Q+A with Helen Anderson, co art school attendee and lifelong friend of John Lennon who designed and created his famous leather peaked caps. Helen has had a long career in the fashion industry since she opened her boutique in Bold St in 1962 and has many friends from the local Merseybeat bands. So, get your questions ready!
- Accompany the celebrated music historian Spencer Leigh as he guides you around the Liverpool 1963 exhibition.
- Meet the Mods! view some great scooters and have your photo taken with a pink Cadillac as local scooter clubs descend on the library to join in the fun in support of the Teenage Cancer Trust

There's a full programme of events and performances all day and 'Who' knows you might even spot a Dalek.
